www.SecuredCities.com

Welcome to SECURED CITIES!

If you can only attend one event in 2016, Secured Cities is your MUST ATTEND event that offers real solutions for a real world.

Funding and rapid technology advancement are two issues both public safety and security personnel are challenged with when it comes to today's strategic planning. As public and private partnerships emerge across the country, having a venue where law enforcement, emergency management, security and government officials can meet in a collaborative environment is essential. Secured Cities is that venue.

Secured Cities is the only national event bringing all of the major players who drive municipal public/private partnership initiatives in public safety, law enforcement and the private and institutional security sectors. The City of Houston plays host to the 8th Secured Cities event on November 8-10, where attendees will be immersed in more than 35 hands-on sessions, security site tours and be provided with the opportunity to meet with today's top solution providers. Concurrent educational tracks feature vital vertical market discussions addressing healthcare, campus, corporate, and transportation sectors, with the safe and secure cities theme tying it all together. Like Atlanta, Chicago, Philadelphia and Baltimore, cities that have played host to Secured Cities over the past four years, Houston is excited to demonstrate its best practices and progressive system and projects.

Secured Cities provides real-world solutions for management and operations, funding and grant approvals, strategies for partnering and collaboration, technology selection and system implementation. Project partners discuss what is trending in funding and grants, current video surveillance and security design and best-of-breed emergency management solutions.

Don't miss your opportunity to join your peers from the public and private sectors charged with keeping their cities, campuses and infrastructure safe in today's 24/7 world of threats. Make your city a Secured City.

"Secured Cities continues to be a valuable event which provides hands-on interaction with key stakeholders in the public safety space. There is enlightening insight to be gained from the educational sessions as well."

— James Chong

Exhibit Hall will be open
for two full days,
totaling 11 hours

WHAT IS SECURED CITIES

A Forum for Funding, Planning and Technology to Address Today's Security Solutions

Secured Cities is a high impact, high value event for today's 'need it today' environment. Attendees of Secured Cities are preparing for tomorrow's threats today and their time is limited. Thus Secured Cities is an intense, two-and-a-half day Boot Camp, with education sessions addressing the latest in technologies and operations, in addition to the funding, planning and implementation of systems keeping their cities, health care facilities, transit systems and educational campuses safe both today and from the threats of tomorrow.

Secured Cities exhibit hall is a high-impact, buying-summit type environment, guaranteed to provide your company access to the players – nationally – involved with the funding, development and implementation of system-wide, city-wide and region-wide technology.

Secured Cities 2016 is our eighth iteration and it keeps getting better. We moved the event to the City of Houston that provided exhibitors immediate access to the Urban Security Initiative (UASI) funded regions in 2015 and 2016.

The City of Houston has welcomed us with open arms and the location will provide exhibitors with direct access to 4 out of 5 of the nation's best performing cities, and is a central location to a national audience in various stage of system development, implementation and upgrade.

WHY EXHIBIT & SPONSOR?

Secured Cities has grown every year since inception because it is a high value, high impact industry tradeshow event for a minimal investment!

- **FOCUS.** Secured Cities is a focused event bringing all of the players in the specification, design, implementation and usage of end-to-end secure communications and technology systems.
- **RETURN ON INVESTMENT.** Secured Cities is committed to providing all exhibiting companies with the highest ROI, determining product and technology interest before the event and providing you access to those interested in seeing you before the event even begins!
- **VALUE.** Exhibiting companies at Secured Cities gain access to new business opportunities not only on the exhibit floor, which is designed with non-competing hours to the education, but your exhibit

The only forum in the industry featuring public/private partnership initiatives that include security technology, funding & budgeting issues.

pass also provides you access to the educational sessions and Networking Reception, extending your access to a highly-qualified audience.

WHO EXHIBITS?

Join security executives from some of the largest Video Surveillance Hardware Manufacturers, (VMS) Video Management Systems Software Firms, Access Control Solution Providers, Emergency Communications and Mass Notification vendors who will be participating as exhibitors at Secured Cities 2016 in Houston!

WHY HOUSTON

SECURED CITIES 2016 RETURNS TO HOUSTON!

With more than 2.2 million residents, the city attracts visitors and transplants with a wonderful mix of world-class arts, booming business, pro sports and award-winning cuisine.

As the rest of the country discovers what locals have known all along, Houston is finally enjoying the recognition it deserves. Just last year, the city landed on several "best of" lists, including the Travel + Leisure roundup of America's Favorite Cities and the Hotwire.com index of most affordable U.S. vacation destinations.

Not surprisingly, businesses also recognize the allure of Houston's offerings. Twenty-five companies on the Fortune 500 list call the Energy Capital of the World home. Aeronautic research is unsurpassed at NASA headquarters—the facility responsible for putting the first man on the moon—and Texas Medical Center remains the largest in the world with 47 highly lauded research and treatment institutions.

When it comes to public safety, Houston is one of the more progressive metropolitan areas in the country. More than a dozen federal, state and local law enforcement, emergency management and government agencies coordinate services and technologies to protect the greater Houston and Harris County jurisdictions. Houston's dedication to the public/private partnership effort is a point of distinction.

So while you are in town for Secured Cities, come, live like a local for a few

days and discover why Houston's mix of international appeal and Southern charm have captured the imagination of taste makers the world over.

HOUSTON FACTS & FIGURES

- Houston is the fourth most populous city in the nation (trailing only New York, Los Angeles, and Chicago) and is the largest in the southern U.S. and Texas
- Houston has the No. 1 spot on Forbes' annual list of America's Fastest Growing Cities
- The Houston metro area's population of 5.95 million in 2010 is the 6th largest among U.S. metropolitan statistical areas according to www.census.gov, and a 26% increase since 2000
- Home to more than 5,000 energy related firms. Houston is considered by many as the Energy Capital of the World
- Houston has a booming Energy Sector, Medical Tech Firms, and on-fire economy
- As a major corporate center. Houston is home to 23 Fortune 500 companies
- Houston boasts more than 40 colleges, universities and institutions – Higher Education Campuses in Houston: Houston Baptist University, Lone Star College System, San Jacinto Community College, University of Houston, Houston Community College System, Rice University, Texas Southern University, University of St. Thomas
- Houston is home to the Texas Medical Center, the largest medical center in the world, with a local economic impact of \$10 billion. More than 52,000 people work within its facilities, which encompass 21 million square feet. Altogether 4.8 million patients visit them each year
- The Port of Houston ranks first in the United States in international waterborne tonnage handled and second in total cargo tonnage handled. It is the tenth largest port in the world. The port handled 220 million short tons of domestic and foreign cargo in 2010
- Houston was the only U.S. destination on the Boston Globe's list of six "places to visit in 2015."
- Houston ranks No. 2 in Travel + Leisure "America's Favorite Cities 2014"
- Houston named the "newest capital of great food" by Food & Wine (2013)
- Houston named one of the 10 greenest cities in the U.S. by Causes.com (2013)
- Forbes rates Houston among the 10 Best Cities for Young Entrepreneurs (2014)
- Thumbtack ranks Houston No. 3 in Nation as most friendly to small business (2014)
- Business Insider named Houston the Best City in America (2013)
